Legend: PK Primary key FK Foreign key Nav Navigation property NotMapped Not stored in DB

1. User

Enums: UserRole = Admin, Customer, Staff

Attribute	Type	Flags	Notes
UserId	int	PK	Primary key
Email	string (150)	Required	Email address
PasswordHash	string (100)	Required	BCrypt hash
Password	string	NotMapped	Plain password (form only)
ConfirmPassword	string	NotMapped	Confirm password (form only)
Role	UserRole	Required	Default: Customer
CreatedAt	DateTime	Required	Account creation time
EmailConfirmed	bool		Email verified flag
EmailVerificationToken	string? (128)		Email confirm token
EmailVerificationTokenExpires	DateTime?		Token expiry
PasswordResetToken	string? (128)		Password reset token
PasswordResetTokenExpires	DateTime?		Reset token expiry
AccessFailedCount	int		Failed login attempts
LockoutEndUtc	DateTime?		Lockout end (UTC)
CustomerProfile	CustomerProfile?	Nav	1:1 customer profile
AdminProfile	AdminProfile?	Nav	1:1 admin profile

Lockout rules: MaxFailedAttempts = 5, LockoutMinutes = 15

2. CustomerProfile

Enums:
ValidIDtype = NationalID, Passport, UMID, DriverLicense, VotersID
Status = Active, Inactive, Pending

Attribute	Type	Flags	Notes
CustomerId	int	PKFK → User	Same as UserId
User	User?	Nav	Linked user account
FullName	string (100)	Required	Customer full name
ContactNumber	string	Required	PH mobile (09... / +639...)
ValidIDtype	string	Required	ID type selected
ValidIDImagePath	string? (255)		Uploaded ID image path
ValidIDImageFile	IFormFile?	NotMapped	Upload field
Status	Status	Required	Default: Pending

3. AdminProfile

Attribute	Type	Flags	Notes
AdminId	int	PKFK → User	Same as UserId
User	User?	Nav	Linked user account
FullName	string (100)	Required	Admin full name

4. Vehicle

Enums:
VehicleType = SUV, Van
VehicleStatus = Available, Rented, InMaintenance, Unavailable

Attribute	Type	Flags	Notes
VehicleId	int	PK	Primary key
Model	string (100)	Required	Vehicle model
PlateNumber	string (20)	Required	Plate number
Brand	string (50)	Required	Brand / make
Color	string (30)	Required	Color
Type	VehicleType	Required	SUV or Van
Status	VehicleStatus	Required	Fleet status
RegistrationDate	DateTime	Required	Registration date

Attribute	Type	Flags	Notes
RegistrationExpiry	DateTime	Required	Registration expiry
BasePrice	decimal(18,2)	Required	Base rental price
SucceedingFee	decimal(18,2)	Required	Fee after base hours
PassengersCount	int	Required	Capacity (1–50)
Description	string? (1000)		Optional description
ImagePath	string? (255)		Vehicle picture path
ImageFile	IFormFile?	NotMapped	Upload field

5. Driver

Attribute	Type	Flags	Notes
DriverId	int	PK	Primary key
Name	string (100)	Required	Full name
Address	string (255)	Required	Address
ContactNo	string (11)	Required	Contact number
LicenseNo	string (30)	Required	License number
ExpiryDate	DateOnly	Required	License expiry
IsActive	bool		Default: true
CreatedAt	DateTime		Date added (UTC)
ImagePath	string? (255)		Driver picture path
ImageFile	IFormFile?	NotMapped	Upload field
FrontLicenseImagePath	string? (255)		Front license image
FrontLicenseImageFile	IFormFile?	NotMapped	Upload field
BackLicenseImagePath	string? (255)		Back license image
BackLicenseImageFile	IFormFile?	NotMapped	Upload field

6. Rental

Enums:

Discount = Yes, No

RentalStatus = Pending, Approved, Cancelled, Expired

RentalOption = Book, Reserve

Rules: ReservePaymentWindowDays = 2 · CancellationFeeWhenInTransit = ₹2,000

Attribute	Type	Flags	Notes
RentalId	int	PK	Primary key
CustomerId	int?	FK → CustomerProfile	Null for walk-in

Attribute	Type	Flags	Notes
Customer	CustomerProfile?	Nav	Linked customer
CustomerName	string (100)	Required	Customer name
ContactNumber	string	Required	Contact number
Notes	string? (500)		Optional notes
RentalStatus	RentalStatus		Default: Pending
RentalOption	RentalOption		Book or Reserve
PaymentDueAt	DateTime?		Reserve payment deadline
CancelledAt	DateTime?		Cancellation timestamp
CancellationFee	decimal(18,2)?		Fee when cancelled
Details	RentalDetails?	Nav	Trip details
IsUnpaidReserve	bool	NotMapped	Computed helper

7. RentalDetails

Attribute	Type	Flags	Notes
RentalDetailsID	int	PK	Primary key
RentalID	int	FK → Rental Required	Parent rental
Rental	Rental?	Nav	Parent rental
VehicleId	int	FK → Vehicle Required	Booked vehicle
Vehicle	Vehicle?	Nav	Booked vehicle
PickupLocation	string (200)	Required	Pickup location
DropoffLocation	string (200)	Required	Drop-off location
PickupDate	DateOnly	Required	Pickup date
ReturnDate	DateOnly	Required	Return date
PickupTime	TimeOnly	Required	Pickup time
ReturnTime	TimeOnly	Required	Return time
PassengerCount	int	Required	1–60
Discount	Discount		Senior/PWD; default No
DiscountImagePath	string? (255)		Discount proof path
DiscountImageFile	IFormFile?	NotMapped	Upload field

8. Payment

Attribute	Type	Flags	Notes
PaymentId	int	PK	Primary key
RentalId	int	FK → Rental Required	Related rental
Rental	Rental?	Nav	Related rental
PaymentMethod	string (30)	Required	e.g. Walk-in, GCash, BDO
PaymentType	string (30)	Required	e.g. Full / Partial
TotalAmount	decimal(18,2)	Required	Total amount due
AmountPaid	decimal(18,2)	Required	Amount paid
ChangeAmount	decimal	NotMapped	Computed change
AccountName	string? (100)		Cashless account name
TransactionReference	string? (100)		Reference code
PaymentDate	DateTime	Required	Payment timestamp
ReceiptImagePath	string? (255)		Receipt image path
ReceiptImageFile	IFormFile?	NotMapped	Upload field
PaymentNotes	string? (1000)		Optional notes

9. Transit

Enums:

FuelLevel = Empty, Quarter, Half, ThreeQuarters, Full

TripStatus = Scheduled, InTransit, Completed, Cancelled, Delayed

Attribute	Type	Flags	Notes
TransitID	int	PK	Primary key
RentalID	int	FK → Rental Required	Related rental
Rental	Rental?	Nav	Related rental
DriverID	int?	FK → Driver	Assigned driver
Driver	Driver?	Nav	Assigned driver
VehicleID	int	FK → Vehicle Required	Trip vehicle
Vehicle	Vehicle?	Nav	Trip vehicle
DepartureTime	TimeOnly?		Actual departure
ReturnTime	TimeOnly?		Actual return
FuelLevelStart	FuelLevel?		Fuel at start

Attribute	Type	Flags	Notes
FuelLevelEnd	FuelLevel?		Fuel at end
VehicleConditionStart	string? (500)		Pre-trip condition
VehicleConditionEnd	string? (500)		Post-trip condition
PreTripImagePath	string? (255)		Pre-trip photo
PreTripImageFile	IFormFile?	NotMapped	Upload field
PostTripImagePath	string? (255)		Post-trip photo
PostTripImageFile	IFormFile?	NotMapped	Upload field
Remarks	string? (1000)		Trip remarks
TripStatus	TripStatus	Required	Default: Scheduled
Feedback	Feedback?	Nav	Customer feedback

10. Feedback

Attribute	Type	Flags	Notes
FeedbackId	int	PK	Primary key
TransitId	int	FK → Transit Required	Related transit
Transit	Transit?	Nav	Related transit
CustomerId	int	FK → CustomerProfile Required	Reviewing customer
Customer	CustomerProfile?	Nav	Reviewing customer
Rating	int	Required	1–5 stars
Comment	string? (1000)		Optional comment
CreatedAt	DateTime		Submitted at

11. MaintenanceLog

Enums:

MaintenanceType = OilChange, BrakeRepair, TireReplacement, BatteryReplacement, EngineRepair, AirconService, MechanicalInspection, RegistrationInspection, GeneralCheckup, Other
MaintenanceStatus = Scheduled, InProgress, Completed, Cancelled

Attribute	Type	Flags	Notes
MaintenanceLogId	int	PK	Primary key
VehicleId	int	FK → Vehicle Required	Related vehicle
Vehicle	Vehicle?	Nav	Related vehicle

Attribute	Type	Flags	Notes
Type	MaintenanceType	Required	Work type
Status	MaintenanceStatus	Required	Default: Scheduled
ScheduledDate	DateOnly	Required	Scheduled date
StartedAt	DateTime?		Work started
CompletedAt	DateTime?		Work completed
Description	string? (500)		Issue / request description
WorkDone	string? (1000)		Work done / findings
Cost	decimal(18,2)?		Maintenance cost
ImagePath	string? (255)		Photo path
ImageFile	IFormFile?	NotMapped	Upload field
Remarks	string? (1000)		Optional remarks
CreatedAt	DateTime	Required	Record created
